PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code § 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division Rule at 28 Texas Administrative Code §134.1, titled *Medical Reimbursement*, effective May 2, 2006 set out the reimbursement guidelines.

1. For the services involved in this dispute, the respondent reduced or denied payment with reason codes:

- W1—"Workers Compensation State Fee Schedule Adjustment."
 - "Charge exceeds Fee Schedule allowance."
- W4—"No additional reimbursement allowed after review of appeal/reconsideration."
 - "This procedure on this date was previously reviewed."

2. This dispute relates to outpatient emergency room services including radiological studies performed in a hospital setting with reimbursement subject to the provisions of Division rule 134.401 (a)(3) and (a)(5), effective August 1, 1997, 22 TexReg 6264, which provide that such services shall be reimbursed at a fair and reasonable rate until the issuance of a fee guideline addressing these specific services.
3. Division rule at 28 TAC §134.1, effective May 2, 2006, 31 TexReg 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. Division rule at 28 TAC §133.307(c)(2)(F)(iii), effective December 31, 2006, 31 TexReg 10314, and applicable to disputes filed on or after January 15, 2007 requires that the request shall include "a position statement of the disputed issue(s) that shall include"... "how the Labor Code, Division rules, and fee guidelines impact the disputed fee issues"... This request for medical fee dispute resolution was received by the Division on May 14, 2008. Review of the requestor's position statement finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The Division concludes that the requestor has not completed the required sections of the request in the form and manner prescribed by the Division as required by Division rule at 28 TAC §133.307(c)(2)(F)(iii).
6. Division rule at 28 TAC §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, and applicable to disputes filed on or after January 15, 2007 requires that the request shall include "a position statement of the disputed issue(s) that shall include"... "how the submitted documentation supports the requestor position for each disputed fee issue"... This request for medical fee dispute resolution was received by the Division on May 14, 2008. Review of the requestor's position statement finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The Division concludes that the requestor has not completed the required sections of the request in the form and manner prescribed by the Division as required by Division rule at 28 TAC §133.307(c)(2)(F)(iii).
7. Division rule at 28 TAC §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, and applicable to disputes filed on or after January 15, 2007 requires that the request shall include "documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement in accordance with Division rule at 28 TAC §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable"... The requestor's position statement requests reimbursement for CPT code 73610 in the amount of "MC@125%" and reimbursement for CPT code 99284 "@75%" of the billed charge. Review of the submitted documentation finds that the requestor did not discuss or explain why it is requesting that payment for the two services be calculated using two different methodologies, nor how it determined that 125% of the Medicare rate would yield a fair and reasonable reimbursement for CPT code 73610 or that payment of 75% of the billed charge would yield a fair and reasonable reimbursement for CPT code 99284. The requestor did not submit evidence, such as redacted EOBs showing typical carrier payments, nationally recognized published studies, Division medical dispute decisions or documentation of values assigned for services involving similar work and resource commitments, to support the proposed methodologies. Nor has the requestor discussed how the proposed methodologies would be consistent with the criteria of Labor Code §413.011, or would ensure similar reimbursement to similar procedures provided in similar circumstances. Review of the documentation submitted by the requestor finds that the requestor has not discussed, demonstrated or justified that the payment amount sought is a fair and reasonable rate of reimbursement in accordance with 28 TAC §134.1. The request for additional reimbursement is not supported. The Division concludes that the requestor has not provided documentation sufficient to meet the requirements of Division rule at 28 TAC §133.307(c)(2)(G).
8. Additionally, the Division has determined that a reimbursement methodology based upon payment of the hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 *Texas Register* 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

Additional payment in the amount of 75% of the billed charge for CPT code 99284 cannot therefore be recommended.

9. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307 (c)(2)(F)(iii), §133.307 (c)(2)(F)(iv) and §133.307 (c)(2)(G). The Division further concludes that the requestor failed to meet its burden of proof to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

PART VI: GENERAL PAYMENT POLICIES/REFERENCES

Texas Labor Code § 413.011(a-d), § 413.031 and § 413.0311
28 Texas Administrative Code §133.307, §134.1, §134.401
Texas Government Code, Chapter 2001, Subchapter G

PART VII: DIVISION DECISION AND/OR ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Section 413.031, the Division has determined that the Requestor is not entitled to additional reimbursement for the services involved in this dispute.
